- ❖ Property/Contents Saved is calculated by subtracting the Property/Contents Loss from the Pre-Incident Value.
- ❖ Property and Contents lost values are estimates only and are intended only to provide an idea of how much damage the fire caused and what it would cost to replace the damaged materials.
- ❖ These estimates are not recognized in court as official appraisals of value.
- ❖ The Property and Contents fields should be completed for every fire incident type (100 series).

## OCTOBER DATA PROVIDED BY:

### NOTES:

- All data is compiled 50 days after the end of the month, or the 20<sup>th</sup> of the month. For example, we stopped accepting data for this report on November 20.
- Any errors in this report regarding your department's data or information about your department should be reported to us for continual monthly improvement.
- Data gathered from 213 of 435, or 49 percent of S.C. fire departments who report monthly, an increase from September where 44 percent reported.
- To date 205,619 incidents have been reported to SCFIRS from 318 departments. This represents an estimated 48% of all SC incidents. To increase this number and improve analysis of the South Carolina Fire Problem, fire departments are encouraged to send NFIRS reports on a consistent, monthly basis.
